

Industrial Electronic Repair Services

Let Braas Company be your one source for all industrial electronic repairs. Our service center can repair virtually any industrial electronic device from any manufacturer.

- **Free** repair evaluations.
- **Free** return of all non-repaired items.
- **All brands** of AC and DC variable speed motor controls, servo drives, programmable controllers (PLCs), timers, counters, safety devices, sensors, temperature controllers, process controllers and more can be repaired.
- **18 month warranty** on all repairs - the entire device is covered not just the repaired components.
- Repairs ship typically in 10 days after receipt of authorization. Expedited repair services available.

Contact Braas Company today for all of your industrial electronic repairs.
